Claims Army Is Stacking Courts Martial

Indiana Senator Lays Protest Before Patterson

Washington, July 8 (AP)—Senator Jenner yesterday demanded a full investigation of army military trial procedures, Jenner asserted when he said the army was "stacking courts martial."

In a letter to Secretary of War Patterson demanding a full investigation of army military trial procedures, Jenner asserted that the army was "stacking courts martial."

"Prisoners are not being permitted to employ either civilian or military counsel of their own choice in the preparation and presentation of their defense."

"Every effort is being made to prevent prisoners who were connected with the infamous Eichelberg prison case to practice as counsel martial in the European theater."

The Indiana senator made public a copy of an editorial "reproving the" which he said was signed by Brig. Gen. Cyrilline E. Neal, assistant deputy, military government headquarters for the military government in Germany, and written by Col. Francis H. Vanderveer, senior brigadier general.

House Passes Tax Slash by Large Margin

Defeat Amendment by Many from Rolls

Washington, July 8 (AP)—The House passed today the Republican-backed bill to cut income taxes by \$4,000,000,000 annually for \$1,000,000,000, beginning Jan. 1.

It came to the vote where approval also is forecast.

The vote was 327 to 11, or more than the two-thirds majority needed to override a presidential veto.

The action, which may encourage another presidential veto, came after Speaker Martin, (R-Mo.),

Security Council Paves Way to Talks On Arms Reductions

Lake Success, July 8 (AP)—The United Nations security council today approved an American blueprint for arms reductions designed to bring a Russian veto that the plan would bring about a cessation of arms production.

The vote was 9 to 0, with Russian and French abstentions.

In view of Truman's fifth annual message to the U. S. Congress, it had been believed the council would be the first to meet in 1947.

Sen. Charles McNary (Ind.) said before the United Nations assembly tonight in a new effort to force the Soviet vetoing plan which already had been rejected by the commission for preventing all armaments.

Mr. McNary was taken up by Sen. A. J. Johnson, (D-Ill.), who said the commission had been working.

The McNary plan would require the U. S. to cut its arms production by 50 percent in the next 10 years, and to cut its arms production by 50 percent in the next 10 years.

Mr. McNary said that the McNary plan would require the U. S. to cut its arms production by 50 percent in the next 10 years, and to cut its arms production by 50 percent in the next 10 years.

No Details of Flying Disk Are Revealed

Roswell Hardware Man and Wife Report Disk Seen

The intelligence officer of the 49th Reconnaissance group at Roswell Army Air Field reported on Monday that the field had some one possession of a flying saucer.

According to information received by the department, the saucer of Maj. J. A. Marvel, intelligence officer, the disk was recovered on a ranch in the Roswell vicinity, after an unidentified number had notified Sheriff Geo. Wilson, that he had found the saucer on his ranch.

Maj. Marvel and a great many other officers went to the ranch and recovered the disk. It was stated.

After the intelligence officer had reported the instrument it was taken to "higher headquarters."

The intelligence officer stated that no details of the saucer's construction or its appearance had been revealed.

Mr. and Mrs. Dan Wilson apparently were the only persons in Roswell who have seen what they thought was a flying disk.

They were visiting on their ranch at 143 South First last Wednesday night at about 10 o'clock before they noticed what a large glowing object zoomed out of the sky from the southeast, came in a northerly direction at a high rate of speed.

Wilson, 44, and Mrs. Wilson, 41, attention to it and both ran down into the yard in which it was in fact seen through a window.

Wilson said that it appeared to him to be about 1,000 feet high and about 10 feet in diameter. He estimated between 100 and 200 miles per hour. In appearance it looked dead and

Miners and Operators Sign Highest Wage Pact in History

Washington, July 8 (AP)—An agreement averting a nationwide coal strike was signed today by John L. Lewis and a majority of the business operators.

In announcing the signing, Lewis said a new conference that it is reasonable to assume, the entire industry will accept the agreement within a few days.

At the annual meeting of the U. M. W. held in the city of Denver, Colo., the miners union leader presided and immediately started negotiations to report the work at the mine.

The men have been on a 35-day strike, which ended last night. Lewis had told them to wait a final signing of the contract before going back to the pits.

ベル様、

昨年あたりから、あなたの放送をフォローしています。あなたやリスナーと、ロズウェルのUFOクラッシュに関連するいくつかの情報を、共有するかどうかを考えてきました。

私の**祖父は、事件が報告された直後にクラッシュサイトに送られた捜査チームのメンバー**でした。1974年に亡くなりましたが、彼が私たちの何人かと座って、事件について話すことはありませんでした。私は現在、軍隊に勤務しており、セキュリティクリアランスを持っています。（情報は）公開したくない、（なぜなら）私のキャリアとコミッションを失うリスクがあるからです。

にもかかわらず、私は、祖父がロズウェルについて話してくれた事を、簡単に伝えたいと思います。そして、祖父が亡くなる前 **祖父が実際に所有していた、保管用の「サンプル」を同封**します。私の知るところでは、これらは UFOの破片の一部で、その後 ニューメキシコからオハイオ州のライト・パターソン空軍基地に送られた大きな破片に含まれていたモノでした。

祖父はそれらを「適切に」扱うことができ、**金属サンプルは「純粋アルミニウム」**であると話していました。それらは、古くて焼き戻されており、後世のために ティッシュペーパーに包まれビニール袋に入っている事に気付くでしょう。

Dear Mr Bell,

I've followed your Broadcasts over the last year or so, and have been considering whether or not to share with you and your listeners, some information related to the Roswell UFO Crash.

My grandfather was a member of the Retrieval Team, sent to the Crash site, just after the incident was reported. He died in 1974, but not before he had sat down with some of us, and talked about the incident. I am currently serving in the Military, and hold a Security Clearance, and do NOT wish to "go public" and risk losing my career and commision.

Notetheless, I would like to briefly tell you what my own grandfather told me about Roswell. In fact, I enclosed for your safekeeping "samples" that were in the possession of my grandfather until he died, and which I have had since his own estate was settled. As I understand it, they came from the UFO debris, and were among a large batch subsequently, sent to Wright-Patterson AFB in Ohio from New Mexico.

My grandfather was able to "appropriate" them, and stated that the metallic samples, are "pure extract aluminum". You will note that they appear old & tempered, and they have been placed in tissue-paper, and in baggies for posterity.

Grandad spent a total of 26 weeks in the Team that examined and debriefed the lone survivor of the Roswell crash. Grandad's affiliation with the "project" ended, when the occupant was to be transported to a long-term facility. He was placed on-board a USAF Transport aircraft, that was to be sent to Washington, DC. The aircraft and all aboard disappeared under mysterious and disturbing circumstances, enroute to Washington, DC.
